PROFESSIONAL EXPERIENCE

Senior Software Development Engineer | Nubra • Bengaluru, India | April 2025 – Present

- Architected a **React Native finance/trading** platform for **100K+** active users using **Atomic Design**, **Zustand**, and TanStack Query, reducing redundant API calls and improving data fetch efficiency across **iOS** and **Android**.
- Developed and integrated custom native Android (Kotlin) and iOS modules for critical trading workflows, including **search**, **option chain**, and **SSL pinning**, extending React Native capabilities for platform-specific requirements.
- Improved app **stability and performance** through **custom Native Modules** (Swift/Kotlin), Hermes tuning, FlatList virtualization, and JS thread **offloading**, while integrating **AI-assisted** workflows with **GitHub Copilot**, **Cursor**, and **Claude**.
- Led architecture decisions, mentored 4 junior developers, and conducted weekly code reviews that reduced production defects and maintained a high-quality, **scalable codebase**.

Senior Mobile App Developer | Alchemy Technologies Ltd • Ahmedabad, India | May 2021 – March 2025

- Designed and shipped **2+ React Native apps** with 100K+ combined downloads using **Redux**, TypeScript, and **Expo**, integrating **GraphQL**, **WebSockets**, Firebase, and **CI/CD** with Fastlane to cut release cycle time by **40%**.
- Grip:** Developed custom **Android native modules using Kotlin** and **iOS native modules using Objective-C** to extend React Native functionality, including **dynamic app-icon switching** and **platform-specific features**.
- Implemented and maintained **CI/CD pipelines using Fastlane** for automated Android and iOS builds and releases, reducing release cycle time by 40%.
- Zolve:** Contributed to the native Android application using **Kotlin**, **Clean MVVM architecture**, **Jetpack components**, **Navigation Graph**, and **Dagger-Hilt** for scalable and maintainable feature development.
- Partnered with QA and design teams, maintaining a **95% on-time release rate** and reducing onboarding time by **50%** through clear **architecture standards**.

Android Developer | React Developer | Latitude Technolabs Pvt. Ltd. • Ahmedabad, India | October 2019 – May 2021

- Led mobile architecture migration from MVC to **MVVM**, refactored legacy **Java** modules to **Kotlin** reducing crash rates, and optimized **ReactJS SPAs** improving page load times and **UI responsiveness**.
- Developed a location-aware **Android** application surfacing nearby beaches, events, and shops with membership-gated content; built a dual-role CA expense management tool with **offline sync** and **CSV export**.

Junior Web Developer Cypherox Technologies Pvt Ltd • Ahmedabad, India | July 2019 – September 2019

- Built dynamic web applications using **PHP**, **ReactJS**, **HTML**, **CSS**, and **JavaScript**, ensuring cross-browser compatibility across 3+ browsers.
